

Sustainability Audit Report

Dear Astrobotic Systems,

We are pleased to share your sustainability audit results:

Audit Summary

- **Website URL:** <https://astrobotic.com>
- **Grade:** B (🌳🌳)
- **Estimated CO₂ per page load:** 0.57 grams
- **Total Page Size:** 2300000 bytes
- **Number of Requests:** 56

Summary

The site is reasonably optimised but still has room for efficiency improvements.

Key Recommendations

- Audit third-party scripts (e.g. analytics, ads).
- Compress and serve next-gen images (WebP, AVIF).
- Consider lazy-loading non-critical assets.

Sustainability Impact

Reducing redundant data transfers and payloads can lower your emissions significantly and improve load times for users.

Comments

A strong performance, but a few changes could elevate your score to A.
